PRESS RELEASE BY THE OFFICE OF THE SPEAKER

Speaker addresses youths participating in the MEPEUROPE – Model European Parliament

Early this afternoon, Speaker Anġlu Farrugia addressed more than 190 youths, hailing from all European Union countries, who throughout this week are participating in the MEPEUROPE, Model European Parliament.

This educational programme offers the opportunity for these youths to learn about the EU and its democratic process.

Speaker Anġlu Farrugia explained in detail the procedure of how the Maltese Parliament works. He also gave a statistical overview of the duties carried out by the members of parliament and the importance of the parliamentary duties carried abroad in various international fora.

Speaker Farrugia expressed appreciation for these youths participating in educational programmes like these in the earlier years of their lives, as this may be the step for some to become future lawmakers in their respective countries.
