Kwalunkwe xogħol strutturali għandu jsir biss wara li l-klabb jikseb il-permess bil-miktub mingħand SportMalta sabiex il-klabb ikun jista' jwettaq dan ix-xogħol. Il-klabb ma jistax japplika għand l-Awtorità tal-Ippjanar u/jew iwettaq xogħol strutturali mingħajr ma jkollu l-permess bil-miktub ta' SportMalta.

Table B4 – Market Value of the Land

The Market Value of the dilapidated land is compared to the rates per square meters of agricultural land. Moreover, as the land in question comprises of a short stretch of road, the market value of the road has to be adjusted according to the Lands Authority Guidelines on Appraisals of Land or Buildings. According to the 'LGS 4 – Valur tal-Art għal Triq' found in the latter Guidelines, it states that:

"Din il-linja gwida għandha tiġi applikata wara li jkun gie maħdum il-valur fis-suq għal kull metru kwadru jew globali tal-art.

Allavolja ma jistax isir żvilupp fuq l-art allokata bħala triq, din it-triq għanda valur għax qed tippovdi access għal art oħra biex issir fabbrikabbli. Huwa għalhekk li l-valur tal-art allokata għal triq normalment jittiehed bħala proporzjon tal-valur tal-art li tkun ser issir fabbrikabbli bit-triq in kwistjoni. Il-valur tal-art għal triq għandu jkun ta' 35% tal-valur fis-suq tal-art li għaliha t-triq tkun ser tippovdi l-access."

Therefore, the final market value was found by multiplying the calculated market value by 0.35, according to the Lands Authority Guidelines.

Location & Planning Policy Considerations

The property is situated in Paola and falls under the following site constrains;

- GI10 Sports/Recreation

As shown in the Grand Harbour Local Plan Kordin Inset Map, the area in question is indicated as "Sports/Recreation". In addition with reference to the same Inset Map, policy Sports/Recreation GI10 states;

GI10 - Sports Area

"The area of land located between the Malta Drydocks and Kordin Industrial estate as identified in the Inset Map will be exclusively reserved for sports and recreation activities. Landscape considerations will be given importance in any design proposals, and each development application will be expected to include an afforestation programme. Every effort will be made not to prejudice the conservation and suitable reuse of the underground power station network below the area.

Another area located within the Industrial boundary and presently used for recreation/sports will be retained until such space is required for further industrial expansion. Such change of use must be tied with access to other sports facilities in the area for use by the workers of the Industrial Estate during the day.

Although sports activities are currently established at Kordin, there still remain substantial parts which are either undeveloped or in a disused or semi-derelict state. This policy is aimed at making more land available for sports related and other complementary uses, which, in the Grand Harbour Local Plan area are very much in short supply. It also sets the context for relocation of existing facilities in areas designated for other uses.

The policy also provides for the enablement of the possibility of the conservation and proper reuse of the old power station network located under this zone. This implies measures like safeguarding means of access and protection of the ventilation shafts until an appropriate use of the site is secured."

Additionally, as shown in the Grand Harbour Local Plan General Proposals Map, the area in question falls in the "GD03 - Recycling Of Redundant/Abandoned Sites" and "GD04 - Upgrading Of Existing Industrial Estates".

GD03 - Recycling Of Redundant/Abandoned Sites

"In order to encourage the recycling and redevelopment of redundant or abandoned sites, the Planning Authority will normally approve the use for industrial or commercial purposes of a site not previously allocated or used for that purpose.

This does not apply to all such sites, but only to those developments which satisfy all of the following criteria:

- the proposal does not involve the loss of residential use or open space;
- the site is no longer required or suitable for its current use or allocation;
- the development is of a form and scale appropriate to its location, and would not have an adverse impact on the local environment and residential amenity;
- the proposal is acceptable in terms of traffic, noise and other effects;
- the proposal is not in conflict with other policies of this Local Plan.

Recycling and efficient use of land is one of the most important considerations of this Plan. The effect of strictly circumscribing the occasions when change of use to industry or commerce is acceptable is to encourage the recycling and redevelopment of redundant or abandoned sites and premises, and to discourage the take-over of residential areas by commercial and industrial development. It may also help to maximise the range of premises and locations brought forward, by removing the 'easy option' of attempting to develop greenfield sites or open land in the built-up area or outside

development boundaries."

GD04 - Upgrading Of Existing Industrial Estates

"The Planning Authority will encourage and support the improvement of the existing industrial estates at Kordin and Ricasoli.

M.D.C. have a programme of improvement which includes securing boundaries, rationalising and controlling access, and carrying out of other partial redevelopment works, including the introduction of planting.

This is strongly supported in principle by the Planning Authority, which encourages early implementation. Appropriate planting schemes along the boundary of the estates are considered to be a major contribution to improving the environment, both as seen from outside the estate and also for the workers themselves. This aspect will therefore be expected to be a major consideration in upgrading proposals."
